

# CAREER PROFESSIONAL DEVELOPMENT (CPD)

I completed my bachelor's degree in telecommunication engineering from the Bangladesh University of Engineering and Technology, BUET in 2014. The engineering course enhanced my fundamental concepts of finding solutions to engineering problems. I have always applied this knowledge in my career to solve many network issues at work and in projects. Apart from basic graduation, I have achieved software certification and I have also worked on MS-Project and MSOffice.

After completing my graduation, I decided to gain some professional experience to polish my skills and to learn more about advanced technologies related to telecommunication engineering, and fortunately, I got the opportunity to work as an assistant engineer in one of the renowned organizations of Dhaka, i.e. ENERGY PAC LTD, Dhaka, Bangladesh, where I implemented my academic engineering knowledge to many projects assigned to me, as well as, provided cost-effective and optimum solutions to many complex problems. During this tenure, I worked under the supervision of my professional engineers and I learned a lot from their rich experience and observed their working attitude under pressure and how they manage the project tasks. This helped me a lot in gaining professional experience, boosted my confidence, improved my communication skills, etc.

I then pursued higher education and completed my master's in Engineering in Telecommunication Network from the University of Technology, Sydney, Sydney, Australia, in 2019. During this tenure, I always remained active and enthusiastic to research and explore more about my field, therefore, I attended many conferences and enrolled myself in online training sessions, attending seminars, and did self-study to develop my skills and knowledge on telecommunication networking.

I summarized below a few professional development activities:

S. No	Form of Activity	Start Date	Finish Date	Venue	Organization
1	Masters of Engineering in Telecommunication Network	Oct 2009	Oct 2019	Sydney, Australia	University of Technology, Sydney
2	Graduate Engineering	March 2016	July 2016	The University of Technology, Sydney University of Technology, Sydney	Sydney, Australia.
3	Advance diploma in Leadership and Management	Jan 2016	Dec 2016	Australian College of Business Intelligence	Sydney, Australia.
4	Conference on Sustainable Operations	Feb 2016	May 2016	Australian College of Business Intelligence	Sydney, Australia.
5	Assistant Engineer	Jan 2015	Dec 2015	Dhaka, Bangladesh	ENERGY PAC LTD, Dhaka, Bangladesh

6	Trainee Engineer	May 2014	Dec 2015	Dhaka, Bangladesh	Energypac Pvt.LTD
7	Synopsis: 1 <sup>st</sup> WIE BD Congress: A Call of Engineering for Humanity Organized	24 Feb 2014	25 Feb 2014	Dhaka, Bangladesh	WIE Affinity Group IEEE Bangladesh
8	IEEE Member	January 2013	March 2013	Hyderabad, India	IEEE R10 Congress HYDERABAD 2013 STUDENT.GOLD.WIE
7	One day workshop on Simulation Software COMSOL 4.3 Multi-Physics	July 2013	July 2013	Dhaka, Bangladesh	IEEE Student branch EastWest University
8	Site safety inspection training	March 2012	April 2012	Dhaka, Bangladesh	Online
9	Technical meetings on advances in Radio Resource	Jan 2012	Feb 2012	Dhaka, Bangladesh	WIE Affinity Group IEEE Bangladesh

I also hold below professional training certificates which I obtained through professional development activities:

- PMP® Certified Professional
- OPITO-TBOSIET
