

Employability Statement - *****

Dear Case Officer,
Migration Tasmania,
Department of State Growth

Date: 09/02/2020

I am “ ***** PAUL”, originally from India, currently residing at [Address] along with my wife. We have moved to Tasmania since [Month, Year]. We as an educated family would like to demonstrate the genuine and strong commitment to live on permanent basis in Tasmania. We are aiming to contribute to the state economy with my skills in mechanical engineering and management sector as well as my wife’s skills in accounting.

Moreover, I have completed my Diploma of Leadership and Management in November 2020 from Australian Ideal College, Tasmania. I particularly took admission in the course for increasing my management and leadership skills which would eventually result in achieving better position. I also acquired Masters of Business Administration with Professional Account in June 2019 from Holmes Institute, Sydney. Further, I completed my bachelor of engineering in Mechanical from Gujarat Technological University, India in the year 2016. All these degrees and courses assisted me in developing my analytical, problem solving and technical skills. I also undertook training of various software which included AUTOCAD, MS Office and these are some mandatory tools specifically used in all engineering industries.

While working as a Quality Control Analyst at VENUS ENGINEERS, I learnt to execute quality testing of the shutter components with the inspection and commissioning of the manufacturing components. Further, I learnt to design the different sections of the shutter in accordance to requirement of the client.

Along with my technical awareness in my field with relevant skills, I further worked towards learning the correct attributes and ethics to work in the Australian environment. I am a passionate individual with the aim to work in the Mechanical Engineering industry. As I am a quick learner with problem solving approach, and appropriate communication skills coupled with honesty, hardworking and friendly nature will surely put me in decent position when it comes to get a professional job.

During my Masters of Business Administration from Holmes Institute, I took various voluntary work in which I consistently interacted with local people and community led towards improving my communication abilities. Also, I am working towards further enhancing my knowledge in the domain of professional accounting. With building my connections, I have developed interpersonal relation with some industry professional which would likely be helpful for me in obtaining a suitable professional role in near future.

My eligibility to work as Mechanical Engineer, Quality Analyst and Business Administrator is valid as I have the required certificates, degrees and valid work experience both in India as well as in Australia. In the meantime,

***** TO BE CONTINUED*****

Sincerely Yours,
PARTHKUMAR PATEL
