RE: Skilled Nominated (Subclass.) Visa Application

I ***** of **Address**, a citizen of the **Country**, desired to attain the Australian Permanent Residency Status and work permanent card. I have an urge to receive the State Sponsorship for a **skilled nominated visa (Subclass 190)** from Tasmania. I am looking forward to settling down in the **town (Postcode)** of Tasmania.

I have found Tasmania a tremendously marvellous place to study, live, and work because of the numerous reasons which I have observed from my personal experience, for instance, high living standards, plenty of career opportunities, safe and healthy environment, best educational institute, infrastructure, climate, pollution-free environment and most importantly access to basic life facilities. Based on the abovementioned elements, I want to settle my life with my family in Tasmania and I considered it a dream place to polish my accountant skills and development skills and an excellent job searching the place where I can grow both professionally and personally. Furthermore, I have been working and living in Tasmania for more than 1.5 years, and since the day one of my arrivals, I never feel homesick because this state gives me a home feeling due to its friendly and warm hospitality community, cultural richness, pleasant and peaceful environment which makes me comfortable here.

I came to Tasmania on the 10th of June, 2019 from Sydney, NSW. We had a baby boy born on the 03rd of June 2020. Since then I have been living in Hobart with my family due to excellent health facilities and hospitals. During the critical situation of COVID-19, the Tasmania government is working day and night to provide the best medical facilities to the people at their doorstep with just one call. I arranged weekly visits to the hospital for my newborn baby where the finest and experienced doctors examined my baby's physical condition and gave a hepatitis B vaccine. Moreover, I often get a free consultation by using free telephone health information and advice service where child and family health nurses provide free health checks for children at key developmental ages between birth and 4 years. Nurses can also give information and advice on a range of parenting and family issues. In addition, an online helpline is also available for people on which anyone can communicate with a trained staff over 24/7 in case of emergency.

On top of that, I found it a very friendly place due to its local people including all generations who are always ready to help immigrants belong to different cultures, backgrounds, and languages which produced a positive impact on me, and I am impressed the way local people open their doors and welcome people wholeheartedly. Hence, all these important factors have encouraged me strongly to select Tasmania as my permanent home and to chase my career dreams and live the best life here. Currently, I am living in **Town Name** however, I also have spent most of the time in Sydney, NSW where I completed my Master degree in Professional Accounting from Southern Cross University and also did a full-time job as a "Accounts Payable Clerk" which makes me perform a comparison between Sydney, NSW and **Town Name**.

Before selecting Tasmania as my permanent resident place, I first carried out a cost analysis because it would help me to make a better decision and will give an insight into the annual living cost to check whether it would be worthful for me or not. Therefore, I performed detailed research by surveying the local markets and visited multiple places & grocery shops to check the prices of different things used on daily basis, as well as, I also searched for different websites on the internet to make a comparison among prices in different parts of Australia.

I found out one of the good comparisons between Hobart and Sydney by using the following website link: <https://www.budgetdirect.com.au/interactives/costofliving/compare/hobart-vs-sydney/>.

Through this significant website, I observed and analyzed the important factors, such as consumer prices in Sydney are 13.00 % higher than in Hobart, Grocery prices in Sydney are 8.50 % higher than Hobart, restaurant prices in Sydney are 3.66 % higher than in Hobart, local purchasing power in Sydney is 3.29% higher than in Hobart, but, among all these values, I found out the significant difference in rent prices, i.e. in Sydney they are 64.62 % higher than in Hobart. So, based on the above cost analysis, I concluded that Tasmania despite being a small island is cheaper and offers an affordable cost of living as compared to Sydney. In addition, the cost comparison has firmed my decision to settle my life in Hobart.

Another massive reason to move to Tasmania is =====
